**AL BARAKA BANK (PAKISTAN) LIMITED**  
**NOTES TO AND FORMING PART OF THE CONDENSED INTERIM FINANCIAL STATEMENTS (UN-AUDITED)**  
**FOR THE HALF YEAR ENDED 30 JUNE 2024**

**1. STATUS AND NATURE OF BUSINESS**

- 1.1** Al Baraka Bank (Pakistan) Limited (the Bank) was incorporated in Pakistan on 20 December 2004 as a public limited company. The Bank was granted an Islamic Banking License BL(I)-01(07), issued by the Banking Policy and Regulations Department of the State Bank of Pakistan (SBP) on 18 January 2007. Subsequently, the Bank was also granted approval for commencement of business as a scheduled bank with effect from 13 February 2007. Upon merger of the Pakistan branches of AlBaraka Islamic Bank B.S.C. (c) with and into the Bank, fresh license no. BL(i)-01(2011) was issued by SBP on 12 March 2011, effective from close of business on 29 October 2010. The main objective of the Bank is to carry on Islamic banking business in Pakistan in accordance and in conformity with Shariah.

The Bank is a subsidiary of Al Baraka Islamic Bank B.S.C. (c) (Parent Bank) incorporated and domiciled in Bahrain, which is 92.81% (2023: 92.81%) owned by Al Baraka Group B.S.C. (Ultimate Parent).

- 1.2** During the year 2016, the shareholders of the Bank in their extra ordinary general meeting held on 22 August 2016 approved the merger of the Bank with Burj Bank Limited under a "Scheme of Amalgamation" (the Scheme). Further, State Bank of Pakistan, through its letter no. BPRD (R&P-02)/2016/24373 dated 14 October 2016, also approved the scheme of amalgamation and granted sanction order for the amalgamation of Ex Burj Bank Limited with and into the Bank. As of the effective date of amalgamation, the entire undertaking of Ex Burj Bank Limited including all the properties, assets and liabilities and all the rights and obligations shall, without any further act, action or deed and notwithstanding the terms of any contract or other document or any rule of law, stands amalgamated with and vest in the Bank and as a consequence, Ex Burj Bank Limited stood amalgamated with and into the Bank.

The Bank's registered office is located at 162, Bangalore Town, Main Sharah-e-Faisal, Karachi. The Bank has 170 branches (31 December 2023: 170 branches) in Pakistan.

- 1.3** Based on the financial statements of the Bank for the year ended 31 December 2023, VIS Credit Rating Company Limited has maintained the long-term rating at 'A+' and short-term rating at 'A-1'.

- 1.4** In order to support the CAR requirements, Al Baraka Islamic Bank B.S.C (c) (Parent Bank) injected temporary Capital Support Fund amounting to Rs 1.394 billion (USD 9 million) which is an allowable capital for the purposes of CAR, MCR and Leverage ratio. These funds can only be remitted back after prior approval of SBP. In case capital of the Bank is not increased through alternate plans, the said capital support fund will be converted into Share Capital of the Bank. Currently, the Bank has obtained exemption from SBP till 30 June 2024. The Bank has applied for timeline extension to SBP for the commencement of conversion process of Capital Support Fund into Share Capital till 30 June 2025. Response from SBP is awaited in respect of this exemption.

As at 30 June 2024, the Minimum Capital Requirement (MCR) and Capital Adequacy Ratio (CAR) stood at Rs. 14.5 billion and 21.45% respectively.

**2. BASIS OF PRESENTATION**

These condensed interim financial statements have been prepared in conformity with the format of financial statements prescribed by the SBP vide BPRD Circular Letter No. 02 of 2023 dated 09 February 2023 and the requirements of International Accounting Standard 34, "Interim Financial Reporting".

**2.1 Statement of compliance**

- 2.1.1** These condensed interim financial statements have been prepared in accordance with the accounting and reporting standards as applicable in Pakistan for interim financial reporting. The accounting and reporting standards comprise of:

- International Accounting Standard 34 "Interim Financial Reporting" and International Financial Reporting Standards (IFRS Accounting Standards) issued by the International Accounting Standards Board (IASB) as are notified under the Companies Act, 2017;
- Islamic Financial Accounting Standards (IFAS) issued by the Institute of Chartered Accountants of Pakistan as are notified under the Companies Act, 2017;
- Provisions of and directives issued under the Banking Companies Ordinance, 1962 and the Companies Act, 2017; and
- Directives issued by the State Bank of Pakistan (SBP) and the Securities Exchange Commission of Pakistan (SECP).

Whenever the requirements of the Banking Companies Ordinance, 1962, the Companies Act, 2017 or the directives issued by the SBP and the SECP differ with the requirements of IAS 34, IFRS Accounting Standards or IFAS, the requirements of the Banking Companies Ordinance, 1962, the Companies Act, 2017 and the said directives, shall prevail.

- 2.1.2** These condensed interim financial statements do not include all the information and disclosures required in the audited annual financial statements, and should be read in conjunction with the audited annual financial statements for the year ended 31 December 2023.

### 2.1.3 Amendments to published accounting and reporting standards that are effective in the current period:

There are certain new and amended standards, interpretations and amendments that are mandatory for the Bank's accounting periods beginning on 01 January 2024 but are considered not to be relevant or do not have any significant effect on Bank's operations and are therefore not detailed in these condensed interim financial statements except for IFRS 9 (Financial Instruments), the impact of which is discussed under note 3.2.

### 2.1.4 Standards, interpretations of and amendments to accounting and reporting standards that are not yet effective:

There are certain new and amended standards, issued by International Accounting Standards Board (IASB), interpretations and amendments that are mandatory for the Bank's accounting periods beginning on or after 01 January 2025 but are considered not to be relevant or will not have any material effect on the Bank's financial statements except for:

- The new standard - IFRS 18 Presentation and Disclosure in Financial Statements (IFRS 18) (published in April 2024) with applicability date of 01 January 2027 by IASB. IFRS 18 is yet to be adopted in Pakistan. IFRS 18 when adopted and applicable shall impact the presentation of 'Statement of Profit and Loss Account' with certain additional disclosures in the financial statements.
- Amendments to IFRS 9 'Financial Instruments' which clarify the date of recognition and derecognition of a financial asset or financial liability including settlement of liabilities through banking instruments and channels including electronic transfers. The amendment when applied may impact the timing of recognition and derecognition of financial liabilities.

## 2.2 Basis of measurement

These condensed interim financial statements have been prepared under the historical cost convention except for certain non-banking assets acquired in satisfaction of claims which are stated at revalued amounts; investment classified at fair value through profit and loss and fair value through other comprehensive income, commitments in respect of certain foreign exchange contracts which are measured at fair value, defined benefit obligations which are carried at present value, and right of use of assets and related lease liability measured at present value on initial recognition.

## 2.3 Functional and presentation currency

Items included in these condensed interim financial statements are measured using the currency of the primary economic environment in which the Bank operates. These condensed interim financial statements are presented in Pakistani Rupees, which is the Bank's functional and presentation currency.

## 3. MATERIAL ACCOUNTING POLICY INFORMATION

The material accounting policies applied in the preparation of these condensed interim financial statements are consistent with those applied in the preparation of the annual audited financial statements of the Bank for the year ended 31 December 2023 except for changes mentioned in notes 3.1 and 3.2.

### 3.1 Adoption of new forms for the preparation of condensed interim financial statements

The SBP, vide its BPRD Circular No. 02 dated February 09, 2023, issued the revised forms for the preparation of the condensed interim quarterly / half yearly financial statements of the Banks / DFIs which are applicable for quarterly / half yearly periods beginning on or after 01 January 2024. The implementation of the revised forms has resulted in certain changes to the presentation and disclosures of various elements of the condensed interim financial statements. Right of use assets and corresponding lease liability are now presented separately on the face of the statement of financial position. Previously these were presented under property and equipment (previously titled fixed assets) and other liabilities respectively. There is no impact of this change on the condensed interim financial statements in terms of recognition and measurement of assets and liabilities.

The Bank has adopted the above changes in the presentation and made additional disclosures to the extent applicable to its operations and corresponding figures have been rearranged / reclassified to correspond to the current period presentation. Such reclassification / re-measurements are disclosed in note 41 to these condensed interim financial statements.

### 3.2 Adoption of IFRS 9 - 'Financial Instruments'

As directed by the SBP via BPRD Circular Letter No. 07 of 2023 dated April 13, 2023, IFRS 9, 'Financial Instruments' is effective for periods beginning on or after 01 January 2024 for banks. Moreover, SBP has also issued application instructions on IFRS 9 for banks in Pakistan for ensuring smooth and consistent implementation of the standard in the banks. IFRS 9 brings fundamental changes to the accounting for financial assets and to certain aspects of accounting for financial liabilities. To determine appropriate classification and measurement category, IFRS 9 requires all financial assets, except equity instruments to be assessed based on combination of the entity's business model for managing the assets and the instruments' contractual cash flow characteristics. The adoption of IFRS 9 has also fundamentally changed the impairment method of financial assets with a forward-looking Expected Credit Losses (ECL) approach.

The SBP through its BPRD Circular Letter No. 16 dated July 29, 2024 has made certain amendments and extended the timelines of SBP's IFRS 9 Application Instructions to address most of the matters raised by the banks with a direction to ensure compliance by the extended timelines.

There are a few matters which include maintenance of general provision, income recognition on Islamic financings and fair valuation of subsidised financings, the treatments of which are still under deliberation with the SBP. The Bank has continued to follow the treatment adopted in respect of these matters in the prior periods till the time SBP issues the relevant guidance / clarification.

### 3.2.1 Classification

#### Financial assets

Under IFRS 9, existing categories of financial assets: Held-for-trading (HFT), Available-for-sale (AFS) and Held-to-maturity (HTM) have been replaced by:

- Financial assets at fair value through profit or loss account (FVTPL)
- Financial assets at fair value through other comprehensive income (FVOCI)
- Financial assets at amortised cost

#### Financial liabilities

Under IFRS 9, the accounting for financial liabilities remains largely the same as before adoption of IFRS 9 and thus all financial liabilities are being carried at amortised cost. Financial liabilities can also be designated at FVTPL where gains or losses arising from entity's own credit rating risk relating to are required to be presented in other comprehensive income with no reclassification to the profit or loss account. The Bank did not have any financial liability measured at FVTPL.

### 3.2.2 Business model assessment

The Bank determines its business model at the level that best reflects how it manages groups of financial assets to achieve its business objective.

The Bank's business model is not assessed on an instrument-by-instrument basis, but at a higher level of aggregated portfolios and is based on observable factors such as:

- the objectives for the portfolio, in particular, whether the management's strategy focuses on earning contractual revenue, maintaining a particular yield profile, matching the duration of the financial assets to the duration of the liabilities that are funding those assets or realising cash flows through the sale of the assets;
- how the performance of the business model and the financial assets held within that business model are evaluated and reported to the Bank's key management personnel;
- the risks that affect the performance of the business model (and the financial assets held within that business model) and, in particular, the way those risks are managed; and
- the expected frequency, value and timing of sales are also important aspects of the Bank's assessment. However, information about sales activity is not considered in isolation, but as part of an overall assessment of how the Bank's stated objective for managing the financial assets is achieved and how cash flows are realised.

The business model assessment is based on reasonably expected scenarios without taking 'worst case' or 'stress case' scenarios into account. If cash flows after initial recognition are realised in a way that is different from the Bank's original expectations, the Bank does not change the classification of the remaining financial assets held in that business model, but incorporates such information when assessing newly originated or newly purchased financial assets going forward.

Eventually, the financial assets fall under either of the following three business models:

- i) Hold to Collect (HTC) Business Model: Holding assets in order to collect contractual cash flows
- ii) Hold to Collect and Sell (HTC&S) Business Model: Collecting contractual cash flows and selling financial assets
- iii) Other Business Models: Resulting in classification of financial assets as FVTPL

Securities held for trading are held principally for the purpose of selling in the near term or are part of a portfolio of financial instruments that are managed together and for which there is evidence of a recent actual pattern of short-term profit-taking. These securities are classified in the 'other' business model and measured at FVTPL.

### 3.2.3 Assessments whether contractual cash flows are solely payments of principal and profit (SPPI)

As a second step of its classification process the Bank assesses the contractual terms of financial assets to identify whether they meet the SPPI test. 'Principal' for the purpose of this test is defined as the fair value of the financial asset at initial recognition and may change over the life of the financial asset (for example, if there are repayments of principal or amortisation of the premium / discount). The most significant elements of profit within a financing arrangement are typically the consideration for the time value of money and credit risk. To make the SPPI assessment, the Bank applies judgment and considers relevant factors such as, but not limited to, the currency in which the financial asset is denominated, and the period for which the profit rate is set. Where the contractual terms introduce exposure to risk or volatility that are inconsistent with basic lending arrangement, the related financial asset is classified and measured at FVTPL.

### 3.2.4 Application to the Bank's financial assets

#### Debt based financial assets

Debt based financial assets held by the Bank (including Islamic financing and related assets, lending to financial institutions, investment in federal government securities, corporate bonds and other private sukuks, cash and balances with treasury banks, balances with other Banks, and other financial assets) are measured at amortised cost if they meet both of the following conditions and is not designated as at FVTPL:

- the assets are held within a business model whose objective is to hold assets to collect contractual cash flows; and
- the contractual terms of the financial assets give rise on specified dates to cash flows that are solely payments of principal and profit on the principal amount outstanding.

The Bank's business model for these financial assets can still be HTC even when sales of these financial assets occur. However, if more than an infrequent number of sales or sale(s) of significant value are / is made, the Bank assesses whether and how the sales are consistent with the HTC objective. This assessment includes the reason(s) for the sales, the expected frequency of sales, and whether the assets that are sold are held for an extended period of time relative to their contractual maturities.

The aforementioned financial assets are measured at FVOCI only if these meet both of the following conditions and are not designated as at FVTPL:

- the asset are held within a business model whose objective is achieved by both collecting contractual cash flows and selling financial assets; and
- the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and profit on the principal amount outstanding.

The aforementioned financial assets if held for trading purposes are classified as measured at FVTPL.

In addition, on initial recognition, the Bank may irrevocably designate a financial asset that otherwise meets the requirements to be measured at amortised cost or at FVOCI as at FVTPL if doing so eliminates or significantly reduces an accounting mismatch that would otherwise arise.

The Bank's investment in sub-ordinated sukuks issued by other Banks under available for sale portfolio as of December 31, 2023 have been reclassified as FVTPL since they do not pass the SPPI criteria due to equity conversion features and loss absorbency clause embedded in the terms of these sukuks.

The following table reconciles their carrying amounts as reported on 31 December 2023 to the carrying amounts under IFRS 9 on transition to IFRS 9 on January 01, 2024:

	Balances as of 31 December 2023 (Audited) (Rupees in '000)	IFRS 9 Classification	Balances as of 31 December 2023 ----- (Rupees in '000) -----	Balances as of 01 January 2024 - before ECL
Non-government debt securities - AFS	1,530,794	FVOCI FVTPL	1,430,794 100,000	1,430,794 100,000

#### Equity based financial assets

Equity instruments are instruments that meet the definition of equity from the issuer's perspective; that is, instruments that do not contain a contractual obligation to pay and that evidence a residual share in the issuer's net assets.

An equity instrument held by the Bank for trading purposes is classified as measured at FVTPL. On initial recognition of an equity investment that is not held for trading, the Bank may irrevocably elect to present subsequent changes in fair value in OCI. This election is made on an investment-by-investment basis. The Bank measures all equity investments at fair value through profit or loss, except where the Bank's management has elected, at initial recognition, to irrevocably designate an equity investment at fair value through other comprehensive income.

The Bank's policy is to designate equity investments as FVOCI when those investments are held for purposes other than for trading. When this election is used, fair value gains and losses are recognised in OCI and are not subsequently reclassified to the profit and loss account, including on disposal. Impairment losses (and reversal of impairment losses) are not reported separately from other changes in fair value. Dividends, when representing a return on such investments, continue to be recognized in the profit and loss account as income when the Bank's right to receive payments is established. The Bank has decided to classify Rs. 98.127 million out of its available for sale equity investment portfolio as of 31 December 2023 as FVOCI on irrevocable basis.

IFRS 9 has eliminated impairment assessment requirements for investments in equity instruments. Accordingly, the Bank has reclassified impairment of Rs. 280.599 million on listed equity investment held as at 31 December 2023 and the same has been transferred to deficit on revaluation of investments through remeasurements.

The following table reconciles the carrying amounts as reported on 31 December 2023 to the carrying amounts under IFRS 9 on transition to IFRS 9 on 01 January 2024:

	Balances as of 31 December 2023 (Audited)	IFRS 9 Classification	Balances as of 31 December 2023	Balances as of 01 January 2024
	(Rupees in '000)		----- (Rupees in '000) -----	
Shares - AFS	219,477	FVOCI	98,128	98,128
		FVTPL	121,349	121,349

The measurement category and carrying amount of financial assets in accordance with the accounting and reporting standards as applicable in Pakistan before and after adoption of IFRS 9 as at January 1, 2024 are compared as follows:

Before adoption of IFRS 9		After adoption of IFRS 9		
Financial assets	Measurement category	Carrying amount as at 31 December 2023	Measurement category	Carrying amount as at 01 January 2024
		(Rupees in '000)		(Rupees in '000)
Cash and balances with treasury banks	Loans and receivables	21,877,439	Amortised cost	21,877,439
Balances with other banks	Loans and receivables	1,683,007	Amortised cost	1,683,007
Due from financial institutions	Loans and receivables	8,098,788	Amortised cost	8,098,788
Investments	Held-for-trading	11,901,767	Fair value through profit or loss	11,901,767
	Available-for-sale	110,979,717	Fair value through profit or loss	221,350
		-	Fair value through other comprehensive income	110,758,367
		110,979,717		110,979,717
Islamic financing and related assets - net	Loans and receivables	79,755,889	Amortised cost	79,755,889
Other assets (financial assets only)	Loans and receivables	10,713,217	Amortised cost	10,713,217
		<u>245,009,824</u>		<u>245,009,824</u>
Due to financial institutions	Held-to-maturity	7,649,661	Amortised cost	7,649,661
Deposits and other accounts	Held-to-maturity	207,337,745	Amortised cost	207,337,745
Subordinated debt	Held-to-maturity	4,624,241	Amortised cost	4,624,241
Other liabilities (financial liabilities only)	Held-to-maturity	9,081,796	Amortised cost	9,081,796
		<u>228,693,443</u>		<u>228,693,443</u>

### 3.2.5 Initial recognition and measurement

Financial assets and financial liabilities are recognised when the entity becomes party to the contractual provisions of the instrument. Regular way purchases and sales of financial assets are recognised on trade date, the date on which the Bank purchases or sells the asset. Other financial assets and liabilities like Islamic financing and related assets, due from financial institutions, deposits etc. are recognised when funds are transferred to the customers' account or financial institutions or as per underlying shariah mode. However, for cases, where funds are transferred on deferred payment basis, recognition is done when underlying asset is purchased. The Bank will recognise due to customer and financial institution balances when these funds reach the Bank.

#### Amortised cost

Financial assets and liabilities under amortised cost category are initially recognised at fair value adjusted for directly attributable transaction cost. These are subsequently measured at amortised cost. An expected credit loss allowance (ECL) is recognised for financial assets in the profit or loss account. Rental income, profit earned / expensed on these assets / liabilities are recognised in the profit or loss account. On derecognition of these financial assets and liabilities, realised gain / loss will be recognised in the profit and loss account.

### **Fair value through other comprehensive income**

Financial assets under FVOCI category are initially recognised at fair value adjusted for directly attributable transaction cost. These assets are subsequently measured at fair value with changes recorded in OCI. An expected credit loss allowance (ECL) is recognised for financial assets in the profit and loss account. Rental income, profit / dividend income on these assets are recognised in the profit and loss account. On derecognition of these financial assets, realised gain / loss will be recognised in the profit and loss account only in case of debt instruments. For equity based financial assets classified as FVOCI, capital gain / (loss) is transferred from surplus / deficit to unappropriated profit.

### **Fair value through profit or loss**

Financial assets under FVTPL category are initially recognised at fair value. Transaction cost will be directly recorded in the profit and loss account. These assets are subsequently measured at fair value with changes recorded in the profit and loss account. Profit / dividend income on these assets are recognised in the profit and loss account. On derecognition of these financial assets, realised gain / loss will be recognised in the profit and loss account. An expected credit loss allowance (ECL) is not recognised for these financial assets.

The Bank's revenue recognition policy is consistent with the annual financial statements for the year ended 31 December 2023.

## **3.2.6 Derecognition**

### **Financial assets**

The Bank derecognises a financial asset when:

- the contractual rights to the cash flows from the financial asset expire; or
- it transfers the rights to receive the contractual cash flows in a transaction in which either:
  - substantially all of the risks and rewards of ownership of the financial asset are transferred; or
  - the Bank neither transfers nor retains substantially all of the risks and rewards of ownership and it does not retain control of the financial asset.

The Bank enters into transactions whereby it transfers assets recognised in its statement of financial position, but retains either all or substantially all of the risks and rewards of the transferred assets. In these cases, the transferred assets are not derecognised.

The Bank enters into transactions where it retains the contractual rights to receive cash flows from assets but assumes a contractual obligation to pay those cash flows to other entities and transfers substantially all of the risks and rewards. These transactions are accounted for as 'pass through' transfers that result in derecognition if the Bank:

- (i) Has no obligation to make payments unless it collects equivalent amounts from the assets;
- (ii) Is prohibited from selling or pledging the assets; and
- (iii) Has an obligation to remit any cash it collects from the assets without material delay.

### **Financial liabilities**

The Bank derecognises a financial liability when its contractual obligations are discharged or cancelled, or expired. The Bank also derecognises a financial liability when its terms are modified and the cash flows of the modified liability are substantially different, in which case a new financial liability based on the modified terms is recognised at fair value.

On derecognition of a financial liability, the difference between the carrying amount extinguished and the consideration paid (including any non-cash assets transferred or liabilities assumed) is recognised in the profit and loss account.

The exchange between the Bank and its original participants of debt instruments with substantially different terms, as well as substantial modifications of the terms of existing financial liabilities, are accounted for as an extinguishment of the original financial liability and the recognition of a new financial liability. The terms are substantially different if the discounted present value of the cash flows under the new terms, including any fees paid net of any fees received and discounted using the original effective interest rate, is at least 10% different from the discounted present value of the remaining cash flows of the original financial liability. In addition, other qualitative factors, such as the currency that the instrument is denominated in, changes in the type of profit rate, new conversion features attached to the instrument and change in covenants are also taken into consideration.

If an exchange of debt instruments or modification of terms is accounted for as an extinguishment, any costs or fees incurred are recognised as part of the gain or loss on the extinguishment. If the exchange or modification is not accounted for as an extinguishment, any costs or fees incurred adjust the carrying amount of the liability and are amortised over the remaining term of the modified liability.

## Financial guarantee

Financial guarantee contracts are contracts that require the issuer to make specified payments to reimburse the holder for a loss it incurs because a specified debtor fails to make payments when due, in accordance with the terms of a debt instrument. Such financial guarantees are given to banks, financial institutions, and others on behalf of customers to secure loans, overdrafts and other banking facilities.

Financial guarantee contracts are initially measured at fair value and subsequently measured at the higher of:

- The amount of the loss allowance; and
- The premium received on initial recognition less income recognized in accordance with the principles of IFRS 15.

### 3.2.7 Modification

The Bank sometimes renegotiates or otherwise modifies the contractual cash flows of financing to its customers. When the contractual cash flows of a financial asset are renegotiated or otherwise modified and the renegotiation or modification does not result in derecognition of that financial asset in accordance with IFRS 9, the Bank recalculates the gross carrying amount of the financial asset and shall recognise a modification gain or loss in the profit or loss account. The gross carrying amount of the financial asset shall be recalculated as the present value of the renegotiated or modified contractual cash flows that are discounted at the financial asset's original effective profit rate (or credit-adjusted effective profit rate for purchased or originated credit-impaired financial assets). Any costs or fees incurred adjust the carrying amount of the modified financial asset and are amortised over the remaining term of the modified financial asset.

### 3.2.8 Overview of the ECL principles

The Bank assesses on a forward-looking basis the expected credit losses ('ECL') associated with all Islamic financing and related assets and other debt financial assets not held at FVTPL, together with letter of credit, guarantees and unutilised financing commitments hereinafter referred to as "Financial Instruments". The Bank recognises a loss allowance for such losses at each reporting date. The measurement of ECL reflects:

- An unbiased and probability-weighted amount that is determined by evaluating a range of possible outcomes;
- The time value of money; and
- Reasonable and supportable information that is available without undue cost or effort at the reporting date about past events, current conditions and forecasts of future economic conditions.

The ECL allowance is based on the credit losses expected to arise over the life of the asset (the lifetime expected credit loss or LTECL), unless there has been no significant increase in credit risk since origination, in which case, the allowance is based on the 12 months' expected credit loss (12mECL) as outlined below.

The 12mECL is the portion of LTECLs that represent the ECLs that result from default events on a financial instrument that are possible within the 12 months after the reporting date. Both LTECLs and 12mECLs are calculated at individual customer level.

The Bank has established a policy to perform an assessment, at the end of each reporting period, of whether a financial instrument's credit risk has increased significantly since initial recognition, by considering the change in the risk of default occurring over the remaining life of the financial instrument. The Bank considers an exposure to have significantly increased in credit risk when there is considerable deterioration in the internal rating grade for subject customer. The Bank also applies a secondary qualitative method for triggering a significant increase in credit risk for an asset, such as moving a customer / facility to the watch list, or the account becoming forborne. Regardless of the change in credit grades, generally, the Bank considers that there has been a significant increase in credit risk when contractual payments are more than 30 days past due. However, for certain portfolios, the Bank may rebut 30 DPD presumption based on behavioural analysis of its borrowers. When estimating ECLs on a collective basis for a group of similar assets, the Bank applies the similar principles for assessing whether there has been a significant increase in credit risk since initial recognition.

Based on the above process, the Bank groups its financial instruments into Stage 1, Stage 2, Stage 3 and purchased or originated credit impaired (POCI), as described below:

Stage 1: When financial instruments are first recognised, the Bank recognises an allowance based on 12mECLs. Stage 1 financial instruments also include facilities where the credit risk has improved and they have been reclassified from Stage 2. The 12mECL is calculated as the portion of LTECLs that represent the ECLs that result from default events on a financial instrument that are possible within the 12 months after the reporting date. The Bank calculates the 12mECL allowance based on the expectation of a default occurring in the 12 months following the reporting date. These expected 12-month default probabilities are applied to a forecast EAD and multiplied by the expected LGD and discounted by an approximation to the original EIR. This calculation is made for all the scenarios.

Stage 2:	When a financial instrument has shown a significant increase in credit risk since origination, the Bank records an allowance for the LTECLs. Stage 2 also includes facilities, where the credit risk has improved and the instrument has been reclassified from Stage 3. The mechanics are similar to those explained above, including the use of multiple scenarios, but PDs are applied over the lifetime of the instrument. The expected cash shortfalls are discounted by an approximation to the original EIR.
Stage 3:	For financial instruments considered credit-impaired, the Bank recognises the lifetime expected credit losses for these instruments. the Bank uses a PD of 100% and LGD as computed for each portfolio or as prescribed by the SBP under the prudential regulations which ever is higher.
POCI:	Purchased or originated credit impaired (POCI) assets are financial assets that are credit impaired on initial recognition. POCI assets are recorded at fair value at original recognition and profit / rental is subsequently recognised based on a credit-adjusted EIR. ECLs are only recognised or released to the extent that there is a subsequent change in the expected credit losses.
Undrawn financing commitments	When estimating LTECLs for undrawn financings commitments, the Bank estimates the expected portion of the financings commitment that will be drawn down over its expected life. The ECL is then based on the present value of the expected shortfalls in cash flows if the financings is drawn down, based on a probability-weighting of the three scenarios. For Diminishing Musharaka facilities that include an undrawn commitment, ECLs are calculated and presented within other liabilities.
Guarantee and letters of credit contracts	The Bank estimates ECLs based on the BASEL driven credit conversion factor (CCF) for guarantee and letter of credit contracts. The calculation is made using a probability-weighting of the three scenarios. The ECLs related to guarantee and letter of credit contracts are recognised within other liabilities.

Effective profit rate is the rate that exactly discounts estimated future cash payments or receipts through the expected life of the financial asset or financial liabilities to the gross carrying amount of a financial asset or to the amortised cost of a financial liability.

#### **The calculation of ECLs**

The Bank calculates ECLs based on a three probability-weighted scenarios to measure the expected cash shortfalls, discounted at an approximation to the EIR. A cash shortfall is the difference between the cash flows that are due to the bank in accordance with the contract and the cash flows that the Bank expects to receive.

The mechanics of the ECL calculations are outlined below and the key elements are, as follows:

PD	<p>The Probability of Default (PD) is an estimate of the likelihood of default over a given time horizon. A default may only occur at a specific time within the assessed period if the facility has not been previously derecognized and remains in the portfolio. PD is estimated using statistical techniques such as the Rating Transition Matrix Model, particularly for low-default portfolios based on the Bank's internal risk ratings (ranging from 1 to 9).</p> <p>For the Bank's portfolios, PDs are determined using the Rating Transition Matrix for corporate, agricultural, retail (excluding Staff and Rehnuma Travel Service products), and SME segments. The Roll Rate model is applied for two retail products: Staff and Rehnuma Travel Service. Through-the-cycle (TTC) PDs are then adjusted using the Vasicek Model for IFRS 9 Expected Credit Loss (ECL) calculations to incorporate forward-looking information.</p> <p>The Bank performs an annual review of the portfolio (excluding Staff and Rehnuma Travel Service products) and constructs a yearly transition matrix of ratings to compute a count-based PD over a one-year horizon for the past seven years. For Staff and Rehnuma Travel Service products, PDs are calculated based on Days Past Due (DPD) bucket levels for each segment separately. Where practical, the Bank also incorporates information from external rating agencies.</p>
EAD	The Exposure at Default is an estimate of the exposure at a future default date, taking into account expected changes in the exposure after the reporting date, including repayments of principal and profit, whether scheduled by contract or otherwise, expected drawdowns on committed facilities, and accrued profit from missed payments. The maximum period for which the credit losses are determined is the contractual life of a financial instrument unless the Bank has the legal right to call it earlier. The Bank's product offering includes a variety of corporate and retail facilities, in which the Bank has the right to cancel and / or reduce the facilities with one day notice. However, in case of revolving facilities, the Bank does not limit its exposure to credit losses to the contractual notice period, but, instead calculates ECL over a period that reflects the Bank's expectations of the customer behaviour, its likelihood of default and the Bank's future risk mitigation procedures, which could include reducing or cancelling the facilities.
LGD	The Loss Given Default is an estimate of the loss arising in the case where a default occurs at a given time. It is based on the difference between the contractual cash flows due and those that the lender would expect to receive, including from the realisation of any collateral. It is usually expressed as a percentage of the EAD.

The discount rate used to discount the ECLs is based on the effective profit rate that is expected to be charged over the expected period of exposure to the facilities. In the absence of computation of the effective profit rate (at reporting date), the Bank uses an approximation e.g. contractual rate (at reporting date).

To mitigate its credit risks on financial assets, the Bank seeks to use collateral, where possible. The Bank considers only those collaterals as eligible collaterals in the EAD calculation which have the following characteristics:

- History of legal certainty and enforceability
- History of enforceability and recovery

When estimating the ECLs, the Bank considers three scenarios (a base case, best case, worst case). Each of these is associated with different PDs. When relevant, the assessment of multiple scenarios also incorporates how defaulted loans are expected to be recovered, including the probability that the loans will cure and the value of collateral or the amount that might be received for selling the asset.

The credit exposure (in local currency) that have been guaranteed by the Government and Government Securities are exempted from the application of ECL calculation.

The bank management has only considered cash, liquid securities and Government of Pakistan guarantees as eligible collaterals, while calculating EADs.

The SBP has issued FAQs in its BPRD Circular Letter No. 16 dated July 29, 2024 with regard to certain interpretation of the SBP application instructions. In respect of Stage 3 provision, the SBP has clarified that the banks, while assessing the higher of IFRS 9 ECL and provision under the SBP Prudential Regulations, shall take into account the ECL against corporate / commercial / SME loan portfolios at the borrower / facility level, and for the retail borrowers at segment / product basis.

#### **Forward looking information**

In its ECL models, the Bank relies on a range of forward looking information as economic inputs, such as:

- GDP growth
- Consumer price index

The Bank's management has only considered cash recoveries for LGD calculations, whereas liquid securities, and Government of Pakistan guarantees are used as eligible collaterals for EAD calculation.

#### **Definition of default**

The Bank defines a financial instrument as in default, which is fully aligned with the definition of credit impaired, when it meets one or more of the following criteria:

The customer is more than 90 days past due on its contractual payments, except in case of agriculture, project infrastructure and housing financing. This implies that if one facility of a counterparty is defaulted as per the definition all other facilities would deem to be classified as stage 3.

Further the following criteria has been determined for assessment of default:

- The Bank makes a charge-off or account-specific provision resulting from a perceived decline in credit quality subsequent to the Bank taking on the exposure;
- The Bank sells the credit obligation at a material credit-related economic loss;
- The Bank consents to a distressed restructuring of the credit obligation where this is likely to result in a diminished financial obligation caused by the material forgiveness, or postponement, of principal, profit or (where relevant) fees;
- The Bank has filed for the obligor's bankruptcy or a similar order in respect of the obligor's credit obligation to the industry group, and 'the obligor has sought or has been placed in Bankruptcy or similar protection where this would avoid or delay repayment of the credit obligation to the industry group', and
- The Bank considers that the obligor is unlikely to pay its credit obligations in full, without recourse by the Bank to actions such as realising security (if held).

#### **Write-offs**

The Bank's accounting policy under IFRS 9 remains the same as it was under SBP regulations.

The Bank has adopted IFRS 9 effective from January 01, 2024 with modified retrospective approach for restatement permitted under IFRS 9. The cumulative impact of initial application of Rs. 836.420 million has been recorded as an adjustment to equity at the beginning of the current accounting period. The details of the impacts of initial application are tabulated below:

Balances as of December 31, 2023	Impact due to:				Remeasurements	Reversal of provisions held	Total impact - gross of tax	Taxation (current and deferred)	Total impact - net of tax	Balances as of January 01, 2024	IFRS 9 Category
	Recognition of expected credit losses (ECL)	Adoption of revised classifications under IFRS 9	Reclassifications due to business model and SPPI assessments	Reclassifications of profit receivable / payable

## 20. SUBORDINATED DEBT

Tier II mudaraba sukuk - second issue	20.1	1,500,000	1,500,000
Tier II mudaraba sukuk - third issue	20.2	1,735,000	1,735,000
Additional Tier I capital	20.3	1,389,241	1,389,241
		<u>4,624,241</u>	<u>4,624,241</u>

20.1 In August 2017, the Bank issued regulatory shariah compliant unsecured, subordinated privately placed Tier-II sukuk (second issue) based on mudaraba of Rs. 1.5 billion as instruments of redeemable capital under section 66 of the Companies Act, 2017. A brief description of Tier-II sukuk (second issue) is as follows:

Credit rating	A by VIS Credit Rating Company Limited
Issue date	22 August 2017
Tenor	7 years from the issue date
Maturity date	21 August 2024
Profit payment frequency	Semi-annually in arrears
Redemption	Bullet payment at the end of the seventh year
Expected periodic profit amount (mudaraba profit amount)	Mudaraba profit is computed under the general depositors' pool on the basis of Profit Sharing Ratio (PSR) and monthly weightages announced by the Bank. Profit rate is 6 month KIBOR + 0.75% per annum.
Call option	The Bank may call Tier-II sukuk with prior approval of SBP after completion of five years from the date of issue.
Loss absorbency	The Tier-II sukuk, at the option of the SBP, will be fully and permanently converted into common shares upon the occurrence of a Point of Non-Viability (PONV) trigger event as determined by SBP or for any other reason as may be directed by SBP.
Lock-in-clause	Profit and / or redemption amount can be held back in respect of the Tier-II sukuk, if such payment will result in a shortfall in the Bank's Minimum Capital Requirement (MCR) or Capital Adequacy Ratio (CAR) requirement.

20.2 In December 2021, the Bank issued regulatory shariah compliant unsecured, subordinated privately placed Tier-II sukuk (third issue) based on mudaraba of Rs. 1.735 billion as instruments of redeemable capital under section 66 of the Companies Act, 2017. A brief description of Tier-II sukuk (third issue) is as follows:

Credit rating	A by VIS Credit Rating Company Limited
Issue date	22 December 2021
Maturity date	21 December 2031
Tenor	10 years from the issue date
Profit payment frequency	Semi-annually in arrears
Redemption	Bullet payment at the end of the tenth year
Expected periodic profit amount (mudaraba profit amount)	Mudaraba profit is computed under the general depositors' pool on the basis of Profit Sharing Ratio (PSR) and monthly weightages announced by the Bank. Profit rate is 6 month KIBOR + 1.5% per annum.
Call option	The Bank may call Tier-II sukuk with prior approval of SBP after completion of five years from the date of issue.
Loss absorbency	The Tier-II sukuk, at the option of the SBP, will be fully and permanently converted into common shares upon the occurrence of a Point of Non-Viability (PONV) trigger event as determined by SBP or for any other reason as may be directed by SBP.
Lock-in-clause	Profit and / or redemption amount can be held back in respect of the Tier-II sukuk, if such payment will result in a shortfall in the Bank's Minimum Capital Requirement (MCR) or Capital Adequacy Ratio (CAR) requirement.

- 20.3** In December 2018, the Bank issued regulatory shariah compliant unsecured, subordinated privately placed Additional Tier-I (ADT-1) capital based on mudaraba of Rs. 1.389 billion. A brief description of Additional Tier-I (ADT-1) capital is as follows:

Credit rating	Not rated
Issue date	26 December 2018
Tenor	Perpetual
Profit payment frequency	Monthly
Redemption	Perpetual
Expected periodic profit amount (mudaraba profit amount)	Mudaraba profit is computed under the general depositors' pool on the basis of Profit Sharing Ratio (PSR) and monthly weightages announced by the Bank. Profit rate is 1 year KIBOR + 2.50% per annum.
Call option	The Bank may call ADT-1 Capital sukuk with prior approval of SBP after completion of five years from the date of issue.
Loss absorbency	The ADT-1 capital, at the option of the SBP, will be fully and permanently converted into common shares upon the occurrence of a Point of Non-Viability (PONV) trigger event as determined by SBP or for any other reason as may be directed by SBP.
Lock-in-clause	Profit and / or redemption amount can be held back in respect of the ADT-1 capital, if such payment will result in a shortfall in the Bank's minimum Capital Requirement (MCR) or Capital Adequacy Ratio (CAR) requirement.

<b>23.3 Other contingent liabilities</b>			
Claims against the Bank not acknowledged as debt		<u>2,072,416</u>	<u>2,687,416</u>
<b>23.4 Tax contingencies</b>			

There is no change in the status of contingencies disclosed in notes 22.3 to the annual audited financial statements for the year ended 31 December 2023, except for the following:

During the year 2021, Assistant / Deputy Commissioner Inland Revenue (DCIR) passed an Order under Section 122(1) of the Income Tax Ordinance, 2001, on account of certain additions / disallowances of certain expenses in the tax return filed for the tax year 2018. The Bank filed an appeal before Commissioner Inland Revenue (Appeals) who passed an Order in 2022 annulling additions / disallowances of certain expenses however there are certain additions / disallowances of expenses for which appeal has been filed before ATIR.

During the year 2023, the DCIR issued notice for the tax year 2018 under section 137(2) to pay the outstanding demand of Rs. 380.154 million. The notice was duly replied by the Bank. During the current period, CIR(A) passed an order wherein the demand of income tax has been reduced to Rs. 61.474 million. The Bank will file an appeal before ATIR in due time.

The management of the Bank, in consultation with its tax advisors, is confident that the appeal is likely to be decided in favor of the Bank and hence, no provision has been made in these condensed interim financial statements for the income tax claims of Rs. 61.474 million.

Diluted earnings per share has not been presented as the Bank does not have any convertible instruments in issue at June 30, 2024 and December 31, 2023 which would have any effect on the earnings per share if the option to convert is exercised.

### 35. FAIR VALUE MEASUREMENTS

Fair value measurement defines fair value as the price that would be received from the sale of an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value of quoted securities other than those classified as amortised cost / held to maturity, is based on quoted market price. Quoted debt securities classified as amortised cost / held to maturity are carried at cost. The fair value of unquoted equity securities is determined on the basis of the valuation methodologies which are best reflective on their business model in accordance with SBP application instructions.

The fair value of unquoted debt securities that are not available, fixed term loans, other assets, other liabilities, fixed term deposits and borrowings cannot be calculated with sufficient reliability due to the absence of a current and active market for these assets and liabilities and reliable data regarding market rates for similar instruments.

In the opinion of the management, the fair value of the remaining financial assets and liabilities are not significantly different from their carrying values since assets and liabilities are either short term in nature or in the case of customer Islamic financing and deposits are frequently repriced.

The Bank measures fair values using the following fair value hierarchy that reflects the significance of the inputs used in making the measurements:

Level 1: Fair value measurements using quoted prices (unadjusted) in active markets for identical assets or liabilities;

Level 2: Fair value measurements using inputs other than quoted prices included within Level 1 that are observable for the assets or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices); and

Level 3: Fair value measurements using input for the asset or liability that are not based on observable market data (i.e. unobservable inputs).

### 35.1 Fair value of financial assets

The following table provides the fair value measurement hierarchy of the Bank's assets:

On balance sheet financial instruments	30 June 2024 (Un-audited)			
	Level 1	Level 2	Level 3	Total
----- (Rupees in '000) -----

	<u>1,886,846</u>	<u>-</u>	<u>-</u>	<u>1,886,846</u>	<u>1,886,846</u>

### 35.3 Valuation techniques used in determination of fair valuation of financial instruments within level 2 and level 3

Particulars	Valuation approach and input used
Listed securities	The valuation has been determined through closing rates of Pakistan Stock Exchange (PSX).
Federal government securities	The fair value of Federal Government securities are determined on the basis of rates / prices sourced from Reuters. However, valuation of Pakistan Energy Sukuk on the basis of rates announced or last traded rates by PSX.
Non-government debt securities	Investment in non-government debt securities denominated in local currency are valued on the basis of rates announced by the Mutual Funds Association of Pakistan (MUFAP).
Foreign securities	The fair value of foreign securities are denominated on the basis of rates taken from Bloomberg / Reuters.
Forward foreign exchange contracts	The valuation has been determined by interpolating the mid rates announced by State Bank of Pakistan.
Non-banking assets acquired in satisfaction of claims	The fair value of land and building are derived using the sale comparison approach. The sales value is determined by physically analysing the condition of land and building and by ascertaining the current market value of similar land, which is selling in near vicinity. Moreover, for buildings, the valuer has also considered prevailing current cost of construction for relevant type of civil work carried out thereon, wherever required.

The valuations of land and building, mentioned above, are conducted by the valuation experts appointed by the Bank which are also on the panel of the Pakistan Banks' Association (PBA). The valuation experts use a market based approach to arrive at the fair value of the Bank's properties. The market approach uses prices and other relevant information generated by market transactions involving identical or comparable or similar properties. These values are adjusted to reflect the current condition of the properties. The effect of changes in the unobservable inputs used in the valuations cannot be determined with certainty, accordingly a quantitative disclosure of sensitivity has not been presented in these condensed interim financial statements.

### 36. RELATED PARTY TRANSACTIONS

The Bank has related party transactions with its Parent, employee benefit plans and its directors and Key Management Personnel.

The Banks enters into transactions with related parties in the ordinary course of business and on substantially the same terms as for comparable transactions with person of similar standing other than Islamic Financing made to key management personnel which is in accordance with human resource policy of the bank. Contributions to and accruals in respect of employee benefit plans are made in accordance with the actuarial valuations / terms of the contribution plan. Remuneration to the executives / officers is determined in accordance with the terms of their appointment.

Details of transactions with related parties during the period, other than those which have been disclosed elsewhere in these condensed interim financial statements are as follows:

**38. CAPITAL ADEQUACY, LEVERAGE RATIO & LIQUIDITY REQUIREMENTS**

	<b>30 June 2024</b>	<b>31 December 2023</b>
	----- (Rupees in '000) -----	
	(Un-audited)	(Audited)
<b>Minimum Capital Requirement (MCR):</b>		
Paid-up capital (net of losses)	14,500,490	14,500,490
<b>Capital Adequacy Ratio (CAR):</b>		
Eligible Common Equity Tier 1 (CET 1) Capital	16,130,512	14,495,766
Eligible Additional Tier 1 (ADT 1) Capital	1,389,241	1,389,241
Total Eligible Tier 1 Capital	17,519,753	15,885,007
Eligible Tier 2 Capital	2,698,072	2,867,796
Total Eligible Capital (Tier 1 + Tier 2)	20,217,825	18,752,803
<b>Risk Weighted Assets (RWAs):</b>		
Credit Risk	71,802,695	73,335,184
Market Risk	1,180,273	2,426,120
Operational Risk	21,257,712	21,257,712
Total	94,240,680	97,019,016
Common Equity Tier 1 Capital Adequacy Ratio	17.12%	14.94%
Tier 1 Capital Adequacy Ratio	18.59%	16.37%
Total Capital Adequacy Ratio	21.45%	19.33%

The minimum capital adequacy ratio required by SBP as at 30 June 2024 is 11.50% (31 December 2023: 11.50%).

**Leverage Ratio (LR):**

Eligible Tier-1 Capital	17,519,753	15,885,007
Total Exposures	311,326,439	288,551,099
Leverage Ratio	5.63%	5.51%

**Liquidity Coverage Ratio (LCR):**

Total High Quality Liquid Assets	128,545,451	138,869,289
Total Net Cash Outflow	54,080,723	64,926,867
Liquidity Coverage Ratio	237.69%	213.89%

**Net Stable Funding Ratio (NSFR):**

Total Available Stable Funding	175,330,674	169,467,734
Total Required Stable Funding	81,343,521	78,239,783
Net Stable Funding Ratio	215.54%	216.60%

**39. CORRESPONDING FIGURES**

Corresponding figures have been re-arranged and reclassified, wherever necessary, to facilitate comparison and better presentation. There were no significant reclassifications / restatements during the period except as given in note 41.

**40. GENERAL**

Figures have been rounded off to the nearest thousand rupees, unless otherwise stated.

**41. RECLASSIFICATION**

As a result of changes in forms for the preparation of condensed interim financial information issued by SBP as referred in note 3.1 and for better presentation, corresponding figures have been rearranged as follows. There are no other material reclassifications.

<b>Transfer from</b>	<b>Transfer to</b>	<b>(Rupees in</b>
Property and equipment	Right-of-use assets	1,543,900
Other liabilities	Lease liabilities	1,677,081
